

Mohamed Amin

Full Stack .NET Web Developer & Backend Specialist

.NET Backend | Angular Frontend

(+20) 1126094153 | dev.mohamedamin@gmail.com | github.com/Mohamed-Amin16 | Egypt

OBJECTIVE

Highly skilled **Full Stack .NET Web Developer & Backend Specialist** with extensive expertise in building scalable, secure, and high-performance RESTful APIs using **ASP.NET Core** and **C#**. Proficient in applying professional architectural patterns including **Clean Architecture**, **Onion Architecture**, **Repository Pattern**, and **SOLID principles**. Experienced in integrating real-time features, advanced caching solutions, and artificial intelligence components, seeking to contribute technical excellence to a dynamic development team. **Postponed Military Service (5 Years)**.

EXPERIENCE & LEADERSHIP

Digital Egypt Pioneers Initiative (DEPI) – Round 4

Current

Full Stack .NET Team Lead

- Leading a cross-functional development team through intensive project delivery, managing technical tasks, sprint backlogs, and ensuring software craftsmanship.
- Enforcing strict coding standards, architectural guidelines, **SOLID principles**, and conducting thorough **Code Reviews** to maintain codebase health.

PROJECTS

E-Auctions Platform (DEPI Graduation Project)

Project Lead

- Architected and developed a real-time online auctioning platform using **ASP.NET Core Web API** following **Clean Architecture** principles.
- Implemented live, low-latency bidding updates using **SignalR WebSockets** to maintain instantaneous synchronization across all connected clients.
- Managed multi-user concurrent bid transactions and automated auction lifecycle state transitions upon expiration.

Hospital Management System (University Graduation Project)

Excellent Grade

- Developed a scalable enterprise healthcare software featuring remote patient tracking, automated clinical workflows, and data analytics.
- Applied decoupled **Onion Architecture** to ensure absolute separation of concerns, high maintainability, and testability.
- Implemented secure authentication, authorization protocols, and fine-grained role-based access controls (RBAC) for medical personnel and patients.

MediCare System

Freelance Project

- Built a robust, production-ready RESTful API for streamlined medical booking management and electronic health records management.
- Utilized the **Repository Pattern** and **Unit of Work** alongside Entity Framework Core to encapsulate data access and safely manage transactions.
- Delivered comprehensive API documentation via Swagger, optimizing communication and enabling rapid frontend integration.

Talabat.APIs – E-Commerce Platform

Personal Project

- Developed an enterprise-grade e-commerce backend simulating shopping cart dynamics, order processing workflows, and secure payment integrations.

EDUCATION

Faculty of Computers and Artificial Intelligence, Sohag University

2022 – 2026

Bachelor's Degree in Computer Science | Accumulative Grade: Excellent (GPA: 3.43 / 4.0)

- Graduation Project: Hospital Management System (Grade: Excellent)

CERTIFICATIONS & TRAINING

Digital Egypt Pioneers Initiative (DEPI) – Round 4

In Progress

Specialized Track in .NET Backend Development

Information Technology Institute (ITI)

Jul 2024 – Aug 2024

Front End Web Development Using Angular (126 Lecture Hours Intensive Course)

- Core Stack: HTML5, CSS3, JavaScript, ES.NEXT, Responsive Web Design, TypeScript, and Angular.

Information Technology Institute (ITI)

Jul 2023 – Aug 2023

Software Development Fundamentals (120 Lecture Hours Intensive Course)

- Core Stack: Flowcharts, C Programming, Object-Oriented Programming (OOP) via C++, Data Structures, and Algorithms.

SKILLS

Backend Development	C#, ASP.NET Core Web API, LINQ, Entity Framework Core, SignalR
Architecture & Design	Clean Architecture, Onion Architecture, Repository Pattern, Unit of Work, SOLID Principles
Frontend Development	Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Responsive Web Design
AI & Computer Vision	OpenCV, SIFT, Canny Edge Detection, Face Detection, Speech Recognition
Databases & Caching	SQL Server, Redis Caching, Firebase
Tools & Collaboration	Git, GitHub, Postman, Swagger, Agile / Scrum

ADDITIONAL INFORMATION

- Languages:** Arabic (Native), English (Professional).
- Interests:** Competitive Programming (Problem Solving), Software Architecture Design, Artificial Intelligence, Continuous Learning.
